

Status Report for Phiquest Project for Week #2

What were the goals for this week?

1. Conduct one meeting with our project stakeholders PhiQuest to begin developing project requirements and project work.
2. Develop at least 5 project requirements and write them into at least 5 user stories in preparation for the requirements document assignment.

What goals were accomplished this week?

1. Conduct one meeting with our project stakeholders PhiQuest to begin developing project requirements and project work.
2. Develop at least 5 project requirements and write them into at least 5 user stories in preparation for the requirements document assignment.

Reflect critically on any goals not accomplished.

We accomplished all goals this week after successfully holding two meetings with the project stakeholders, PhiQuest. Thanks to these meetings, we have a path forward, we are set up with all the access we need, and we have our project roles decided. Additionally, we have routine meetings with our contact scheduled.

What are the goals for next week?

1. Create a website design in Adobe XD with a login page, module page, and a general template for individual pages for modules.
2. Develop a website with a landing page that contains a secure login field by checking account information with a backend table.
3. Research methods to generate hashes for documents, update a PDF's metadata, and set up a blockchain with Node.js.
4. Write 1 entry into our project journal in the Google Drive.

How many hours were spent on each goal noted above?

Ethan Wuitschick – Goal 1 received 3 hours of work and goal 2 received 1 hour of work.

Allen Cheng – Goal 1 received 3 hours of work.

Arnaldo Barea - Goal 1 received 3 hours of work.
