

Skills and Knowledge Learned - Allen Cheng

New knowledge I have obtain through the process are, programming in JavaScript/node.js which was learned by watching YouTube videos and just various code written for the project.

Website designing learned from designing the page wireframes, and feedback/tips Jay Dinicola provided.

Learned about databases, specifically SQL and MariaDB, which was learned through practice and viewing code written by Andre and the previous USF team.

Basic knowledge of a blockchain, which was obtained by researching about blockchains and integrating Arnaldo's standalone blockchain project into the PhiQuest project.
