Status Report for PhiQuest Team for Week #11

What were the goals for this week?

1. Solidify final deliverables with PhiQuest through a one hour project planning meeting.
2. Build the DocBridge.io metrics dashboard to display statistics and data on extension usage and membership statistics.
3. Reorient team development on the new PhiQuest GitLab server.
4. Plan and develop final demonstration deliverables.

What goals were accomplished this week?

1. Solidify final deliverables with PhiQuest through a one hour project planning meeting.
2. Build the DocBridge.io metrics dashboard to display statistics and data on extension usage and membership statistics.
3. Reorient team development on the new PhiQuest GitLab server.
4. Plan and develop final demonstration deliverables.

Reflect critically on any goals not accomplished.

All goals were accomplished this week; while more work may be done to refine the metrics page on the dashboard, it's at a functional state and the primary JavaScript needed has been written. Additionally, all work is now being done on a new server and version control is back to normal, so we've returned to group collaboration on the code.

What are the goals for next week?

1. Expand administration dashboard login system: allow for username/password logins as well as oAuthentication through Google.
2. Add more elements to the admin metrics page, displaying the total number of users and total number of documents sent in card view.
3. Add comments to developed code to prepare to introduce Andre to our code (who will be taking over the project after this course is finished) as we are nearing the end of the project.
4. Create readme document for the administration dashboard to accompany the code comments for readability and clarity on our code and application.
5. Make changes to the specification document and test plan document with the feedback provided by Dr. Christensen in preparation for the final submission.

How many hours were spent on each goal noted above?

Ethan Wuitschick - (1) hours on goal 1, (1.5) hours on goal 2, (1) hours on goal 3, (0.5) hour on goal 4
Allen Chang - (1) hours on goal 1, (4) hours on goal 2
AJ Barea - (1) hour on goal 1, (1) hours on goal 2, (2) hours on goal 4
