Status Report for PhiQuest Team for Week #13

What were the goals for this week?

1. Create readme document for the administration dashboard to accompany the code comments for readability and clarity on our code and application.
2. Allow a guest user to enter the dashboard in a limited mode that only shows the blockchain explorer.
3. Implement all feedback given by Jeremy during the project semi-final demonstration with PhiQuest.
4. Create the press release for the final project demonstration.

What goals were accomplished this week?

1. Create readme document for the administration dashboard to accompany the code comments for readability and clarity on our code and application.
2. Allow a guest user to enter the dashboard in a limited mode that only shows the blockchain explorer.
3. Implement all feedback given by Jeremy during the project semi-final demonstration with PhiQuest.
4. Create the press release for the final project demonstration.

Reflect critically on any goals not accomplished.

All goals that were set for this week were accomplished by Wednesday evening, so we could have set even more goals for the week. We feel that we are nearly prepared for the final demonstration on April 29th and can't wait to show off our project.

What are the goals for next week?

1. Create a poster according to the final submission specifications that sells the features and purpose of the project.
2. Create a video demonstrating the main features and explaining the implementations of our project.
3. Create a slideshow presentation for the final demonstration on April 29, 2022.
4. Deliver the final project to PhiQuest and hand off future development to them.

How many hours were spent on each goal noted above?

Ethan Wuitschick - (1) hour on goal 1, (1.5) hours on goal 3, (1) hour on goal 4
Allen Chang - (1.5) hours on goal 1, (1) hour on goal 2, (1) hours on goal 3, (1) hour on goal 4
AJ Barea - (1) hour on goal 1, (1) hours on goal 3, (1) hours on goal 4
